

Jillian Ramirez

Full Stack Software Engineer

Toronto, ON (437) 603-0481 github.com/J-Jill linkedin.com/in/jillian-ram jillianswd@outlook.com jillianram-dev.com

Full Stack Software Engineer with 3+ years of experience at Accenture delivering **AI-powered** production web applications for enterprise client accounts, working in fast-moving, cross-functional teams. I own features end-to-end, from architecture and implementation to deployment and ongoing maintenance. I've also built multi-agent workflows that take features from spec to tested code, and I'm always looking for ways AI can make engineering teams faster and more reliable. Proficient in **React**, **TypeScript**, **Node.js**, **Python**, **AWS** (Amplify, S3, Lambda), **LLM integrations**, and **Agile/Scrum**.

Work Experience

Full Stack LLM Development Analyst [Accenture · Málaga, Spain \(Remote\)](#) Jun 2024 – May 2026

- Owned an end-to-end AI-powered document processing workflow, from file upload and LLM-driven form population to a multi-step reviewer approval flow, partnering with product and business stakeholders to turn an ambiguous manual process into an easy-to-use tool.
- Built a real-time conversational AI interface on top of LLM services that handled concurrent sessions reliably at enterprise scale, focusing on performance, state management, and production debugging.
- Designed and shipped modular, reusable agentic AI components adopted across multiple client accounts, reducing duplicated work and speeding up onboarding of new accounts.
- Maintained a microfrontend architecture for AI-powered applications where each app deployed independently, allowing multiple teams to ship in parallel without blocking each other.
- Partnered with a Staff Architect to build a multi-agent development workflow using spec-driven development, with specialized AI agents taking features from PRD through TDD to production-ready code. Led team adoption, raising the engineering standard for code quality and test coverage.

Full Stack Engineer [Accenture · Málaga, Spain \(Remote\)](#) Jun 2023 – Jun 2024

- Built and maintained RESTful API services for a merchandising client, consumed across multiple enterprise accounts, defining API contracts with frontend teams and keeping services stable in production.

Software Engineer Intern [Instructr · Denmark \(Remote\)](#) Jan 2023 – Mar 2023

- Shipped frontend features and integration tests in a fast-paced remote startup working in Agile/Scrum.

Projects

LensAI: AI Observability Dashboard [React](#) [TypeScript](#) [FastAPI](#) [Python](#) [PostgreSQL](#) [Anthropic](#) [SDK](#)

- Designed and built a full stack monitoring dashboard tracking latency, token usage, cost, and error rates across LLM API integrations, giving clear visibility into system health and spending.

WildSphere: Interactive 3D Wildlife Visualization [React](#) [19](#) [TypeScript](#) [Three.js](#) [TanStack](#) [Query](#) [v5](#)

- Architected and deployed an interactive 3D globe consuming live data from the iNaturalist API. Taught myself 3D rendering from scratch and owned it from system design to production. wildsphere.netlify.app

Distiller: AI Document Assistant [FastAPI](#) [Python](#) [ChromaDB](#) [LangChain](#) [React](#)

- RAG tool that ingests documents and answers questions with source-grounded responses, combining vector search for retrieval with LLM orchestration for answer generation. trydistill.vercel.app

Education & Training

B.A. in Digital Interactive Design (4-year program) · Universidad Iberoamericana, Mexico Jun 2018

Full-Stack Web Developer Bootcamp · Ironhack, Madrid Jul 2022

AWS Cloud Practitioner Essentials · Amazon Web Services Oct 2026

AWS She Builds Mentorship Program · Amazon Web Services Sep 2026 – Present

Skills

Frontend: JavaScript | TypeScript | React | Next.js | HTML5 | CSS3 | Tailwind CSS | Microfrontends

Backend & Cloud: Node.js | Python | FastAPI | RESTful APIs | PostgreSQL | MongoDB | AWS (Amplify, S3, Lambda) | Docker

AI & Tools: LangChain | Anthropic Claude API | GitHub Copilot | Vitest | Cypress | Git | Agile/Scrum

Languages: Spanish (native) | English (fluent)
